CIVIC TOWER

In 1643, following a celebration when the Savoy dukes visited the town, a terrible fire broke out in the tower, devastating part of the belfry. It was rebuilt in 1644 and finished with elegant plasterwork, and the main bell was recast. The current bell, which weighs 1,700 kg, was installed in 1949. The building, which has been restored in recent years, has hosted the local tourism office and several temporary exhibitions.

CONVENT OF SANTA MONICA (UNIVERSITY)

In the early 2000s the University of Turin, in agreement with the municipality of Savigliano, decided to turn the complex into a university campus. The renovation work took up the traditional construction techniques and historical evolution of the structure. An Italian garden was created in the quadrilateral, taking up the plan of the convent garden as depicted in the first town plan of Savigliano, drawn up by Maurizio Eula in 1841 and preserved in the Municipal Historical Archives.

GOING TO WORK IN THE MORNING

My job is a long distance from my home, almost 50 miles away. I have to wake up early every morning, as I'm always in a rush. There's never enough time for a relaxed breakfast. At exactly 6:00 AM, I get into my car and start the long drive. I usually like driving on the highway more than in the city. During the morning rush hour, though, it's not very enjoyable.

CHRISTMAS

Santa Claus is said to fly around the Christmas sky in a sled powered by his magical reindeer, coldresistant, mythically powered, individually named animals, delivering presents to each child's house in the process. Santa is also expected to slide through chimneys to deliver these presents (homes not equipped with chimneys might "leave the front door cracked open"), and children sometimes arrange cookies or other treats on a plate for him to enjoy.

TRIUMPHAL ARCH

Work to erect the Triumphal Arch commenced on 9 May 1585 in preparation for the wedding parade of Duke Charles Emmanuel I and his wife Catalina Micaela, daughter of the King of Spain, in July. The procession, on its way back to Turin from Zaragoza, where the nuptials had been celebrated, crossed Piedmont from Ceva to Moncalieri.

The towns visited by sovereigns would hold celebrations and ceremonies during which the façades of the houses were decorated and arches, often temporary, would be erected to exalt the power of the ruling house.

CHRISTMAS

is widely celebrated and enjoyed across the United States and the world. The holiday always falls on 25 December (regardless of the day of the week), and is typically accompanied by decorations, presents, and special meals. Specifically, the legend behind Christmas (and the one that most children are told) is that Santa Claus, a bearded, hefty, jolly, and red-jacket-wearing old man who lives in the North Pole, spends the year crafting presents with his elves, or small, festive, excited Santa-assistants.

MUNICIPAL BUILDING – TOWN HALL

After the boys' elementary school moved to a new wing constructed for it by engineer Guido Jaffe close to the old oratory of San Filippo, in 1930 the building became the new headquarters of the municipal administration. Work to decorate the ceremonial rooms and the hall of honour was completed according to the instructions of the "podesta" Annibale Galateri. Important authorities visiting the city were received in the new building, such as King Victor Emmanuel II on 31 August 1930, and Prince Humbert and Princess Maria José on 21 September 1930.

As has been the case for many years, jobs, or forms of employment wherein employees perform a service or duty in exchange for financial compensation, play a prominent role in society. Furthermore, all jobs—even those of seemingly little significance—are important, as they simply wouldn't exist if their specific responsibilities weren't of value to employers (companies or persons that pay others for their work), customers (individuals who pay money for a product or service), and the economy generally.

PIAZZA SANTA ROSA

Considered one of the loveliest squares in the entire Piedmont region, it was built over ancient structures. Its irregular and elongated shape is due to the numerous transformations over the years when the buildings were incorporated. It dates back to the thirteenth century, when Savigliano became a free commune and the noble families who had moved there settled around this central area, building fortress dwellings facing the square. With the communal ordinance of 1470, work commenced to reorganize the square, which had become the administrative and economic heart of the town.

THE FOUR SEASONS.

Autumn (or fall), more than being a simple precursor to winter, is one of the most beautiful and exciting seasons. Spanning from 22 September to 21 December (technically, that is; snow will begin to fall long before this latter date, in most parts of the country, leading many to classify the period as winter) in the US, autumn is characterized by falling leaves, Halloween (on 31 October), and Thanksgiving.

MUNICIPAL BUILDING – TOWN HALL

The building was planned by the head engineer of the municipal government, Clodoveo Cordoni, in order to house the boys' elementary school. The cornerstone of the building was laid on 4 September 1889 in the presence of Mayor Stefano Musante, the municipal council, and civic and religious authorities. When Cordoni was transferred to Novara as head engineer and then to Genoa as director of public works, construction work was directed by his successor, engineer Cotta-Ramusino. Following provisional inspection of the structure in March 1892, the work was completed in 1901.

THE FOUR SEASONS

are spring, summer, fall, and winter, and although various areas of the United States experience drastically different weather during these times, all portions of the country recognize the seasons; winter in California may bring heat, and winter in New York may bring blizzards, but both periods are nevertheless winter. Following winter, spring begins on 20 March and ends on either 20 June or 21 June, in the United States (this date may vary slightly from year to year and hemisphere to hemisphere).
